

Bay Basics ...

feedback from some of our very happy students . . .

- ✓ “Very informative, Tracey is very giving of her time and info – would like more time with lighting” Cathy
- ✓ “I’ve really developed confidence in my ability to visualize colours/layout etc. Where once I would have left colour choice etc up to others – now I want to get in and do it myself” Penny
- ✓ “I enjoyed the course, I knew it would be great. The staff reflect the surroundings and service which is second to none” Anonymous
- ✓ “A wealth of knowledge given” Donna
- ✓ “Confirmed the way I went about planning my home was OK. Good to have a professional give us ideas” Anonymous
- ✓ “Thought it created an excellent basis for people building, would definitely recommend to people building or renovating. I see a lot of people struggling to bring all these things together and can be very swayed by the comments of other people (trades people). This course encourages them to look for what they want and not what everyone else is having.” Tanya
- ✓ “Gave me a good basic understanding of design concepts to enable me to start putting my own room together” Grace
- ✓ “I loved it! A very friendly place” Meryl
- ✓ “Excellent. Tracey has certainly shown me some interesting ideas. She’s been so very patient with me and I’m so grateful for all she’s done! Also a huge thank you to you all at Bay Basics Course. The Emporium is a wonderful place for us all to come in and browse or buy whichever. I’ve thoroughly enjoyed this course. Thank you all.” Tricia
- ✓ “Great, now I can go to a House Designer with all my ideas. When is Bay Basics Course 2 – Bring it on!” Jan
- ✓ “It was extremely enjoyable. I felt that there was not quite enough time to cover all the areas of interest as one subject kept leading to another. As a basic course I felt it covered most of the basic elements and I look forward to seeing what other courses are offered as a follow on” Cheryl
- ✓ “Great for a start in interior design. Practical help to co-ordinate colour and design” Elissa
